Professional Summary

A former Jaguar Land Rover production specialist turned self-taught frontend developer, I blend hands-on engineering experience with a passion for building sleek, high-performance digital applications. I bring a supportive and enthusiastic mindset to every project, leveraging strong problem-solving abilities, technical expertise, and effective communication skills while continuously learning new technologies. From optimising real-world assembly lines to crafting seamless user experiences in React, precision is at my core.

Experience

School of Code - Full Stack Developer (Bootcamp) - Feb 2024 – May 2024

- Developed front-end and back-end solutions, including database management, AI, and quality assurance.
- Implemented user-friendly Front end interfaces with product management strategies.
- Collaborated with a diverse team using agile practices, paired programming, and weekly hackathons.

Frontend Simplified - Frontend Developer (Online) - Jul 2022 – Nov 2022

- Mastered front-end technologies: HTML, CSS, JavaScript, and React.js.
- Developed dynamic and visually appealing Front end applications through hands-on projects.
- Built a professional e-portfolio to showcase skills and achievements.

Projects

WMCA Scheduling Tool : [Live Demo](#) | [Github repository](#)

- **Brief:** Create a high-level view of scheduled activities across departments for West Midlands Combined Authority.
- **Solution:** Built a scheduling tool that streamlined departmental coordination for 50+ employees.
- **Responsibilities:** Customized components, built filtering systems, and integrated dynamic data displays.

AnimeWorld : [Live Demo](#) | [Github repository](#)

- Developed a responsive Anime search website with React.js and JikanAPI.
- Features included React Router for navigation, React Hooks for state management, and optimized UI for mobile.

Previous Careers

Private Hire Driver - Self-Employed (Oct 2021 - Present)

- Managed a high-volume client-facing role, making quick decisions under pressure.
- Resolved trip issues in real-time.
- Ensuring excellent customer satisfaction (4.98 / 5 rating).

Production & Quality Operative - Jaguar Land Rover (Jan 2012 - Mar 2021)

- Conducted thorough inspections of manufactured parts to detect any defects.
- Verified that all products met the required quality standards before approval.
- Worked closely with team members to maintain a seamless workflow and reduce downtime.
- Participated in cost saving exercises by improving job loads and lowering non value added processes.

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, React.js, Next.js

Backend & Databases: Node.js, Express, Firebase, PostgreSQL

Tools & Workflows: Git, Playwright (testing), API integration, JWT, JSON, UI Libraries (MUI)
