Work History

2022-07 - Current

Freelance Web Developer
Self-employed, Birmingham

- Planned website development, converting mock-ups into usable web presence with HTML, JavaScript, CSS and React coding.
- Designed, implemented and monitored web pages, plugins and functionality for continuous improvement.
- Oversaw technical issues and troubleshooting requests to resolve user problems.

2022-09 - 2022-11

Intern
Front-end Simplified, Virtual

- Transformed a totally static HTML, CSS, JavaScript and React single sheet application into an interactive interface utilizing animations, transitions and carousels
- Data from a cloud server was dynamically displayed using skeleton loading states, pagination, and dynamic routing by processing API requests with Axios.
- Worked in a virtual, collaborative team setting using Git version control and the GitHub interface.

2021-05 - 2021-10

IT Configuration Engineer
SCC, Birmingham , West Midlands

- Installing OS builds - Installing custom builds given from various clients
- Configuring hardware - Installing hardware and configuring software for numerous clients
- Dispatching hardware - dispatching
